Walter Kaegi's research concentrates on Byzantine and late
Roman history, especially from the fourth through
eleventh centuries, with special attention to the seventh
century. He investigates relationships between Byzantium
and the Near East, including Islam, military and
historiographical subjects and their interrelationships with
religion and thought. He seeks to set these researches in

Walter Kaegi's 'Byzantium and the Early Islamic Conquests' is essential reading for anyone who wants to understand the details behind the rapid Byzantine collapse in Syria and Mesopotamia. However, those who want a more general and broader historical survey of the period in general should look elsewhere, as this book's focus is narrow and its audience primarily scholarly. For example, the Muslim conquest of Egypt is only ever mentioned in passing: the book's focus is purely that of Syria.
