Oscillations of certain nonlinear delay parabolic boundary

Abstract. In this paper we consider some nonlinear parabolic partial differential equations with distributed deviating arguments and establish sufficient conditions for the oscillation of some boundary value problems.

Oscillation criteria for boundary value problems of high

The objective of this paper is to obtain the oscillatory criteria of solutions to the boundary value problem given by (E) and (B). Our approach is to reduce the multi-dimensional oscillation problem to an one-dimensional oscillation problem by employing some integral means of solutions and introducing some parameter functions.

Forced oscillation of fractional differential equations

Many authors have studied the existence and uniqueness of solutions for different types of fractional boundary value problems; see the papers [7 18] and the references cited therein. The oscillation theory for fractional differential and difference equations has been studied by some authors (see [19 29]).

Oscillation criteria for a nonlinear hyperbolic equation

In this paper, a class of boundary value problems associated with high-order partial functional differential equations with distributed deviating arguments is investigated.
